

REVERSE SCAVENGER HUNT

**To protect the planet
and keep it clean,
we must search the house
for items seen and unseen.**

Where will you find it?
Where should it go?
When you finish this challenge,
you will certainly know!

Objective

Be a Recycling Superstar and know what is and is not recyclable.

What you will need

- 1 The list of what is and is not recyclable in your program.**
- 2 Slips of paper with names of things that come in recyclable packages and things that are not recyclable items.**

For example:

• bottled water	• magazine	• toy
• milk	• scrap paper	• shirt
• soup	• shipping box	• basket
• cereal	• shampoo	• book
• chips	• dish detergent	• battery
• snack bar	• laundry detergent	• cell phone or tablet
• soda	• paper towels	
• juice	• laundry detergent	
- 3 Make a master list of yes/no items. Create and fold slips with names of items and drop them into a bowl.**
- 4 OPTION: Use a tablet to share the house diagram on the following page, print a diagram and complete the exercise on paper, or go around your house together. Up your game and write clues for each item.**

**Everything we buy and bring into
our home must someday go
somewhere else. Where should it go?**

Ask your superstar(s) to tell you what they know about recycling. Can they list some things that do and don't belong in recycling?

**With your master list ready, have each player reach
into the bowl and pull a slip and read the clue.**

**Either have players bring you the item or mark on the
house diagram where that item might be when it is
either empty, outgrown or ready to pass on.**

Discuss what path the item should take.

REMEMBER Recyclables must be EMPTY and DRY.
